## Subject index\*

### A

#### Abstracts

Abstracts. 1990;18:135-50

#### Accidents, occupational

Noncompliance with Universal Precautions Policy: Why do physicians and nurses recap needles? (Becker et al). 1990;18:232-9

Sharp object injuries in the hospital: causes and strategies for prevention (Jagger et al). 1990;18:227-31

Which physicians are at high risk for needlestick injuries? (Mansour). 1990;18:208-10 (Brief rep.)

#### Acinetobacter infections

Investigation of an outbreak of *Acinetobacter calcoaceticus* var. *anitratus* infections in an adult intensive care unit (Contant et al). 1990;18:288-91 (Practice forum)

#### Acquired immunodeficiency syndrome

High *Staphylococcus aureus* nasal carriage rate in patients with acquired immunodeficiency syndrome or AIDS-related complex (Raviglione et al). 1990;18:64-9

Occupational hazards to health care workers: diverse, ill-defined, and not fully appreciated (Moore and Kaczmarek). 1990;18:316-27

#### Age factors

Nosocomial infections in the pediatric patient: an update (Allen and Ford-Jones). 1990;18:176-93

#### AIDS-related complex

High *Staphylococcus aureus* nasal carriage rate in patients with acquired immunodeficiency syndrome or AIDS-related complex (Raviglione et al). 1990;18:64-9

#### Air-fluidized beds; see Beds

#### Air microbiology

Heavy contamination of operating room air by *Penicillium* species: identification of the source and attempts at decontamination (Fox et al). 1990;18:300-6

#### Alcohol, propyl

Efficiency of skin sterilization for a venipuncture with the use of commercially available alcohol or iodine pads (Choudhuri et al). 1990;18:82-5

#### Ambulatory surgery

Ambulatory surgery postoperative wound surveillance (Flanders and Hinnant). 1990;18:336-9 (Practice forum)

Surgical wound infections occurring in day surgery patients (Zoutman et al). 1990;18:277-82

#### Anesthetics

Occupational hazards to health care workers: diverse, ill-defined, and not fully appreciated (Moore and Kaczmarek). 1990;18:316-27

\*February, pp. 1-54; April, pp. 55-150; June, pp. 151-226; August, pp. 227-294; October, pp. 295-346; December, pp. 347-422.

### Anti-infective agents, local

Alcohol-impregnated wipes as an alternative in hand hygiene (Butz et al). 1990;18:70-6

APIC guideline for selection and use of disinfectants (Rutala). 1990;18:99-117 (Guidelines)

The effect of surgical handwashing routines on the microbial counts of operating room nurses (Pereira et al). 1990;18:354-64

Efficiency of skin sterilization for a venipuncture with the use of commercially available alcohol or iodine pads (Choudhuri et al). 1990;18:82-5

Intermittent use of an antimicrobial hand gel for reducing soap-induced irritation of health care personnel (Newman and Seitz). 1990;18:194-200

### Antibiotics

Antibiotic sensitivity and the prescribing information sheet: assisting the prescribing physician (Snyder et al). 1990;18:399-404 (Practice forum)

High *Staphylococcus aureus* nasal carriage rate in patients with acquired immunodeficiency syndrome or AIDS-related complex (Raviglione et al). 1990;18:64-9

### Antineoplastic agents

Occupational hazards to health care workers: diverse, ill-defined, and not fully appreciated (Moore and Kaczmarek). 1990;18:316-27

### APIC guidelines for infection control practice

APIC guidelines for selection and use of disinfectants (Rutala). 1990;18:99-117

### Aspergillus

Heavy contamination of operating room air by *Penicillium* species: identification of the source and attempts at decontamination (Fox et al). 1990;18:300-6

### Association for Practitioners in Infection Control

APIC guideline for selection and use of disinfectants (Rutala). 1990;18:99-117 (Guidelines)

The infection control practitioner: an action plan for the 1990s (McGowan). 1990;18:29-39 (Special article)

Seventeenth annual conference and international meeting. 1990;18:135-50 (Abstracts)

### Attitude of health personnel

Noncompliance with Universal Precautions Policy: Why do physicians and nurses recap needles? (Becker et al). 1990;18:232-9

### B

#### Bacillus subtilis

A new perspective of microbial survival and dissemination in a prospectively contaminated air-fluidized bed model (Winters). 1990;18:307-15

#### Back, injuries

Occupational hazards to health care workers: diverse, ill-defined, and not fully appreciated (Moore and Kaczmarek). 1990;18:316-27

**Bacteremia; see Septicemia**

**Bacteria, gram-negative; see Gram-negative bacteria**

**Bandages, occlusive; see Occlusive dressings**

**Beds**  
A new perspective of microbial survival and dissemination in a prospectively contaminated air-fluidized bed model (Winters). 1990;18:307-15

**Bloodletting**  
Blood contamination of tourniquets used in routine phlebotomy (Forseter et al). 1990;18:386-90 (Brief rep.)

**Books**  
Book reviews. 1990;18:50-4, 130-4, 224-6, 293-4, 343-6, 405-8

**Brief reports**  
Brief reports. 1990;18:208-10, 283-7, 328-35, 385-90

**Burnout, professional**  
Occupational hazards to health care workers: diverse, ill-defined, and not fully appreciated (Moore and Kaczmarek). 1990;18:316-27

**C**

**Catheterization**  
Colonization and bacteremia related to duration of triple-lumen intravascular catheter placement (Ullman et al). 1990;18:201-7

**Catheterization, urinary; see Urinary catheterization**

**Catheters, indwelling**  
Coagulase-negative staphylococci: interplay of epidemiology and bench research (Goldmann). 1990;18:211-21 (Special article)

**Certification**  
A guide to the Certification Board of Infection Control's recertification program (Jacobson). 1990;18:283-7 (Brief rep.)  
Recertification—by examination or by CEU? (McFarland) (Letter); (Jaeger) (Reply). 1990;18:222-3

**Child day care centers**  
Occurrence of infectious symptoms in children in day care homes (Butz et al). 1990;18:347-53

**China**  
A prospective study of nosocomial infections in cardiac surgery in China (Liu-yi and Shu-qun). 1990;18:365-70

**Chlorhexidine**  
The effect of surgical handwashing routines on the microbial counts of operating room nurses (Pereira et al). 1990;18:354-64

**Clinical trials**  
Selection of controls (Childress and Childress) (Letter); (Landry et al) (Reply). 1990;18:292

**Clostridium infections**  
Control of *Clostridium difficile* colitis outbreak by treating asymptomatic carriers with metronidazole (Kerr et al). 1990;18:332-5 (Brief rep.)

**Colitis**  
Control of *Clostridium difficile* colitis outbreak by treating asymptomatic carriers with metronidazole (Kerr et al). 1990;18:332-5 (Brief rep.)

**Colony count, microbial**  
Colonization and bacteremia related to duration of triple-lumen intravascular catheter placement (Ullman et al). 1990;18:201-7
